

CARE Report Oct 2020

Patti Easterling CARE CO-Chair

As you all are aware this has not been a normal year. Our project in Honduras, Gardens for Healthy Nutrition had to re-evaluate with the Corona Virus. I have just seen the reports from Honduras and I believe they have done a great job in their distribution efforts.

Now we are in our first of have two years in Haiti. This first year will be fundraising in July 2021 we will be going and putting the funds to start working on this project.

With most clubs not meeting and some not even being able to fund raise I know it's hard to keep asking for money. Though that's what we're here to do to make this project successful. We need to start talking more right now about the Gordon F Smith Award. This is a very prestigious award in the name of a man that was very important to MD 19 Lions. I call this our "pet project" We need to start showing more pride in supporting our Multiple Districts Project.

Respectfully submitted
Patti Easterling CARE Co-Chair
